Construction

Heavy duty 304 Stainless Steel construction tanks shell, 304 stainless steel pallet base and top frame, designed for the most demanding environments.

Handling

Forklift truck and pallet truck and top lift.

Transport

The dimensions of H1800mm x L1200mm x W1200mm.

Storage

Self stacking, no need for racking.

Advantages

The FC Stainless Steel UN IBC is a very competitively priced rental option for the transport and storage of UN packaging group 2 and 3 Products.

The FC has a capacity of over 1050 litres, is built to last and has unrivalled strength in this class of product.

Easy to fill using the large 460mm dia manway, or utilise the 1 x 2" part F camlock on the tank top.

Fully drainable base. The outlet terminates in a Full flow, 3 piece, 2" Ball valve with PTFE seals, part F camlock and cap.

Large outlets aid product discharge.

All seals are PTFE and all wetted areas are 304 Stainless Steel.

IBC Cleaning and Service Centre

Metano employs the latest Ultra High Water Jetting technology and Industrial Robotics to clean the IBC after use.

All containers are stripped, cleaned, rebuilt and tested on site at our Rowlands Gill facility.

Our service centre Cleans, Repairs and performs UN periodic testing of Metano rental units.

All Metano rental units are reusable and can be recycled at the end of life. Metano can offer a truly sustainable cradle to grave rental solution for all your liquid packaging needs.

Contact Metano Today for a rental Quote.
